

Term 3 2021-2022

Course Code & Title:	GERM3002- German VI	
Language of Instruction:	German / English	Units: 3

Course Description

This course builds on the knowledge acquired through previous German language courses. It aims at leading students to a proficiency level comparable to the threshold from A2 to B1 of the Common European Framework for Languages (CEFR), becoming “independent users” of German. To achieve this goal, students will be encouraged to work project-based through independent or collaborative work with their peers. At the end of this course students will have mastered the most important grammar features of German and be able to communicate effectively in a wide range of everyday situations and a number of professional contexts. They will be able to use their oral and written language skills to relate to, reflect on and analyse past and current issues involving the German-speaking societies.

The prerequisite for this course is German V, GERM3001 or equivalent knowledge of German. Not for students who have taken GERM 3002.

Learning Outcomes

Upon completion of the course, the student should be able to deal with daily situations in German such as

- talking about and commenting on travel habits
- describing and evaluating the climate and weather of places
- talking about events and venues and convincing people to go to one
- communicating on print media and on documents
- reporting incidents and asking about the circumstances
- talking about, describing and evaluating school systems, professional training and jobs
- discussing about working abroad, mobility and travel

Academic Honesty and Plagiarism

Attention is drawn to University policy and regulations on honesty in academic work, and to the disciplinary guidelines and procedures applicable to breaches of such policy and regulations. Details may be found at <http://www.cuhk.edu.hk/policy/academichonesty/>.

With each assignment, students will be required to submit a signed declaration that they are aware of these policies, regulations, guidelines and procedures. For group projects, all students of the same group should be asked to sign the declaration.

For assignments in the form of a computer-generated document that is principally text-based and submitted via VeriGuide, the statement, in the form of a receipt, will be issued by the system upon students' uploading of the soft copy of the assignment. Assignments without the receipt will not be graded by teachers. Only the final version of the assignment should be submitted via VeriGuide.

Feedback for Evaluation

Our language programme highly values students' feedback and comments and is happy to use them for reflection on our teaching and improvement. Students are very welcome to provide comments and feedback on the course any time to their course teacher or the course level coordinator through email or in personal conversation. In addition, students' feedbacks will be collected in the middle of the term through an open-end questionnaire and the teacher will discuss the feedbacks in class and make improvements if necessary. The course will also follow the university's course evaluation exercise at the end of the term, and students' feedbacks will be used for future course planning and teaching.
