<b>Course Code &amp; Title:</b>	<b>HKSL 3002B C01 Hong Kong Sign Language VI</b>	
<b>Language of Instruction:</b> Hong Kong Sign Language	<b>Units: 3</b>	

Course Description
This course is the continuation of HKSL3001. This course adopts a communicative approach to sign language teaching. This course emphasizes developing the skills for expressing personal opinions and constructing longer narratives, helping students to become independent users of the language. Students will learn to command a larger vocabulary and complex sign language structures. Students are encouraged to analyze some selected deaf issues in the local community and the world.

Learning Outcomes
<p>Upon completion of this course, students will develop Hong Kong Sign Language proficiency at B2 level in the Common European Framework of Reference for Languages (CEFR). CEFR profiles a learner's language proficiency in a number of illustrative descriptors in six levels (A1, A2, B1, B2, C1, C2). The descriptors covers language skills of production, comprehension, signed interaction, processing text, pragmatic competencies, thematic development, and qualitative factors. Acquiring the skills at B2 level, students will be independent users of Hong Kong Sign Language, being able to use the language to</p> <ul style="list-style-type: none"> <li>• understand the main ideas of complex text on both concrete and abstract topics, including technical discussions in his/her field of specialization.</li> <li>• interact with a degree of fluency and spontaneity that makes regular interaction with native/proficient signers quite possible without strain for either party.</li> <li>• produce clear, detailed text on a wide range of subjects and explain a viewpoint on a topical issue giving the advantages and disadvantages of various options.</li> </ul>

**Feedback for Evaluation**

Our language programme highly values students' feedback and comments and is happy to use them for reflection on our teaching and improvement. Students are very welcome to provide comments and feedback on the course at any time to their course teacher or the course level coordinator through email or in personal conversation. In addition, students' feedback will be collected in the middle of the term through an open-ended questionnaire and the teacher will discuss the feedback in class and make improvements if necessary. The course will also follow the university's course evaluation exercise at the end of the term, and students' feedback will be used for future course planning and teaching.

**Academic Honesty and Plagiarism**

Attention is drawn to University policy and regulations on honesty in academic work, and to the disciplinary guidelines and procedures applicable to breaches of such policy and regulations. Details may be found at <http://www.cuhk.edu.hk/policy/academichonesty/>.

With each assignment, students will be required to submit a signed declaration that they are aware of these policies, regulations, guidelines and procedures.

- In the case of group projects, all members of the group should be asked to sign the declaration, each of whom is responsible and liable to disciplinary actions, irrespective of whether he/she has signed the declaration and whether he/she has contributed, directly or indirectly, to the problematic contents.
- For assignments in the form of a computer-generated document that is principally text-based and submitted via VeriGuide, the statement, in the form of a receipt, will be issued by the system upon students' uploading of the soft copy of the assignment.
- Students are fully aware that their work may be investigated by AI content detection software to determine originality.
- Students are fully aware of the AI approach(es) adopted in the course. In the case where some AI tools are allowed, students have made proper acknowledgment and citations as suggested by the course teacher.

Assignments without a properly signed declaration will not be graded by teachers.

Only the final version of the assignment should be submitted via VeriGuide.

The submission of a piece of work, or a part of a piece of work, for more than one purpose (e.g. to satisfy the requirements in two different courses) without declaration to this effect shall be regarded as having committed undeclared multiple submissions. It is common and acceptable to reuse a turn of phrase or a sentence or two from one's own work; but wholesale reuse is problematic. In any case, agreement from the course teacher(s)

concerned should be obtained prior to the submission of the piece of work.

The copyright of the teaching materials, including lecture notes, assignments and examination questions, etc., produced by staff members/ teachers of The Chinese University of Hong Kong (CUHK) belongs to CUHK. Students may download the teaching materials produced by the staff members/ teachers from the Learning Management Systems, e.g. Blackboard, adopted by CUHK for their own educational use, but shall not distribute/ share/ copy the materials to a third-party without seeking prior permission from the staff members/ teachers concerned.

### **Use of Generative Artificial Intelligence (AI) Tools in Teaching, Learning and Assessment**

#### **All use of AI tools is prohibited in assignments and assessment tasks**

For assignments and assessment tasks that count towards the final course grades, students are not allowed to submit work which is produced with the collaboration of or supported by the use of any generative AI tools (e.g. ChatGPT)\*.

Any breach of the regulations will be considered an act of academic dishonesty and will be handled according to the University's *Procedures for Handling Cases of Academic Dishonesty*.

In case of queries, students should seek advice from the course teacher
